May 31, 2013

Kurt Starman, City Manager
City of Redding
777 Cypress Avenue
Redding, CA 96001

**Subject: Support for City of Redding 2013 Transportation Appropriation Request
Interstate 5/Oasis Road Interchange Improvement Project**

Dear Kurt:

Please accept this letter of support for the city of Redding's 2013 transportation appropriation request for improvements at the Interstate 5/Oasis Road interchange. The Oasis Interchange Improvement Project is included in the Shasta County Regional Transportation Plan and is a critical component within a larger set of planned regional improvements.

The Interstate 5 corridor has long been the highest priority of the Shasta Regional Transportation Agency. The South Redding Six Lane Project was completed last year in our continued efforts to create a six-lane facility along the Interstate 5 mainline within our urbanized area. Our board of directors also approved a Metropolitan Improvement Program to address corresponding interchange needs within the corridor. The Oasis Interchange Improvement Project is a key component because it would improve connectivity between the cities of Redding and Shasta Lake where planned growth would address regional economic needs.

This project will enhance access and mobility for our struggling economy and enjoys our full support for consideration of TIGER funds.

Sincerely,

Daniel S. Little, AICP, Executive Director
Shasta Regional Transportation Agency (MPO)
