

STAFF REPORT

MEETING DATE: October 21, 2021
SUBJECT: Receive Update on Salmon Runner Intercity Bus Project
AGENDA ITEM: 10
STAFF CONTACT: Jennifer Pollom, Senior Transportation Planner

SUMMARY:

Caltrans Division of Rail and Mass Transit (DRMT) rescinded a 2020 Federal Transit Administration (FTA) Intercity Bus Program grant award (\$600,000) for the Salmon Runner Intercity Bus service. Procurement for an operator has been discontinued. Staff continues to work with state partners to resolve the funding rescission.

STAFF RECOMMENDATION:

It is recommended that the board of directors receive an update on the Salmon Runner Intercity Bus project.

DISCUSSION:

In June, Caltrans DRMT rescinded SRTA's 2020 FTA Intercity Bus Program grant award (\$600,000) for Salmon Runner bus operations. Caltrans grant administrators erroneously awarded the funding in an operating year which they later determined was not eligible. Not only was the \$600,000 in funding rescinded, but the mistake also likely caused a loss of an additional \$600,000 when Caltrans determined that only "existing" projects would be funded in the next cycle. When the original \$600,000 was rescinded, the project lost "existing" status and was denied the additional \$600,000 for a total impact of \$1.2 million. Staff had not yet issued a request for proposals for Salmon Runner operations, and SRTA's procurement process was discontinued due to insufficient funding (Table 1). An estimated \$1.3 million annually is needed to operate two round trips daily between Redding and Sacramento.

Table 1: Salmon Runner Committed Operation Funding

Funding Partner and Program	Amount	Funding Process
Federal Transit Administration (FTA) Intercity Bus Program	\$600,000	Annual grant process
Caltrans Division of Rail and Mass Transportation State Rail Assistance "Bus Gap" Award	\$470,000*	*Two-year pilot project
San Joaquin Joint Powers Authority (SJJPA) Rail Passenger Commitment	\$200,000	Annually
Tehama County Transportation Commission Congestion Mitigation and Air Quality Improvement (CMAQ)	\$100,000	One- to two-year commitment with an annual grant process
Total	\$1,370,000 \$770,000	

The removal of the funding was a major blow to launching this long-anticipated service and a disappointment to those in the community hoping to use the service this fall, particularly considering recent cuts to Amtrak train service, Amtrak Thruway Bus service, and Greyhound service in Redding.

Despite rescinding the grant, Caltrans DRMT is including the start of Salmon Runner in the on-going Statewide Intercity Bus Study and will work with SRTA on the operations plan. The operations plan will need to identify guaranteed long-term funding for the service.

In anticipation of a successful resolution of operational funding, SRTA will continue working with Caltrans DRMT, the California State Transportation Agency (CalSTA), and regional and state partners on the development of a zero-emission motorcoach that can meet requirements of the Interstate 5 (I-5) bus service and other statewide needs. In December 2019, the SRTA Board of Directors authorized staff to pursue funding to develop a prototype fuel cell motorcoach and hydrogen manufacturing and fueling infrastructure to address the Salmon Runner I-5 bus service. Staff will work with Caltrans DRMT, CalSTA, and the California Transportation Commission to use the 2018 Transit and Intercity Rail Capital Program (TIRCP) award of \$8.6 million to develop the prototype fuel cell motorcoach and hydrogen manufacturing and fueling infrastructure.

ALTERNATIVES:

The board of directors may request additional information from staff or provide direction to staff on how to proceed.

OTHER AGENCY INVOLVEMENT:

SRTA is seeking to determine Caltrans DRMT's level of commitment to funding intercity bus service along the I-5 corridor between Redding and Sacramento, including intermediate stops in Red Bluff and Orland. Caltrans DRMT is working with SRTA on an operations plan and will ultimately determine if future funding is awarded through discretionary programs. SJJPA committed funding to Salmon Runner operations to carry rail passengers to and from Sacramento, like the Amtrak Thruway bus. Tehama County Transportation Commission committed \$100,000 in CMAQ funding for new bus service operations if the service starts. The Caltrans DRMT and CalSTA are also working with SRTA to use the \$8.6 million TIRCP award on hydrogen fuel cell zero-emission motorcoaches and supporting infrastructure.

SRTA and rural transit partners have contributed extensive time to regional intercity bus transportation. Since 2015, SRTA has led the planning and coordination effort to develop the North State Intercity Bus Program, including several successful grant awards. A history of related SRTA Board of Directors agenda items is attached.

The Technical Advisory Committee (TAC) was provided an update.

FISCAL IMPACT

Without the FTA grant award of \$600,000 and denied funding in the subsequent cycle, the service has been put on hold indefinitely. Staff will apply for funding in the next cycle if further discussions with Caltrans make it clear that the service is in fact a top North State priority, as has been stated in the past.
