

REPORT TO SHASTA COUNTY RTPA

SUBJECT	MEETING DATE	ITEM NUMBER
Appoint New Members to the Social Services Transportation Advisory Council (SSTAC)	12/14/04	3-3

RECOMMENDATION

It is recommended that the Agency

- 1) Appoint two new members to the Social Services Transportation Advisory Council (SSTAC) and;
- 2) Re-appoint two current members to three-year terms.

SUMMARY

In order to comply with the California Public Utilities Code Section 99238, the RTPA is required to have a minimum nine-member SSTAC in place. Two of the existing members were initially appointed for one-year terms. Their terms are up and need to be reappointed for three-year terms.

DISCUSSION

The SSTAC is an active committee that is required by State law to make annual recommendations concerning unmet transit needs. California Public Utilities Code Section 99238 requires the SSTAC to consist of specific members of the community who are disabled, elderly, of limited means, or who are from social services agencies - which provide for those who are disabled, elderly or of limited means. Members are appointed by the Agency for one-year, two-year, and three-year terms. New members receive one-year terms.

Hart Rumbolz, a private citizen, representing transit users and senior citizens, and Janice Galloway of Shasta County Mental Health, representing social service providers for the disabled, have submitted applications for membership. Both have actively participated in SSTAC meetings as non-members, and have completed an application for appointment.

Larry Scarborough of Far Northern Regional Center and Kay Hudelson of Golden Umbrella were initially appointed for one-year terms. It is recommended that Larry Scarborough and Kay Hudelson be appointed for three-year terms to the SSTAC committee.

OTHER AGENCY INVOLVEMENT

The SSTAC and the Technical Advisory Committee (TAC) supports the recommended appointments.

FINANCING

There are no financial impacts associated with appointing citizens to the SSTAC.

Daniel J. Kovachich, Executive Officer

SLC/jac
