

Community Workshop

Shasta Coordinated Transportation Plan

Shasta Regional Transportation Agency (SRTA) has updated the Shasta Coordinated Transportation Plan.

The plan aims to improve transit services in the region, especially those services that serve older, low-income, and/or disabled individuals in the Shasta Region. The Draft Coordinated Plan identifies strategies to improve people's mobility by better coordinating public transit and other transportation services in the region.

At this workshop, we will be discussing the Draft Coordinated Plan, as well as the recommended strategies to continue to grow and strengthen mobility services throughout the Shasta Region.

SRTA is looking forward to hearing what the community thinks and is committed to improving transportation services for residents of the Shasta Region.
