Approved June 24, 2014

Shasta County 2015 Federal Transportation Improvement Program

Federal Fiscal Years 2014/15 – 2017/18

Final June 24, 2014

Prepared By:

Shasta Regional Transportation Agency
1255 East Street, Suite 202
Redding, CA 96001

In cooperation with:

City of Anderson
City of Redding
City of Shasta Lake
County of Shasta
Caltrans, District 2
Redding Area Bus Authority
Shasta Senior Nutrition Program
Pit River Tribe
Redding Rancheria
Various Additional Transportation Grant Recipients

This document is disseminated and funded through grants from the Federal Highway Administration and Federal Transit Administration. The views and opinions of the agency expressed herein do not necessarily state or reflect those of the U.S. Department of Transportation. The agencies represented in this document assume no liability for its contents or use thereof.

RESOLUTION

RESOLUTION NUMBER:	14-05
SUBJECT:	Adopt the Shasta County 2015 Federal Transportation Improvement Program

WHEREAS, Title 23 USC Sec. 134(j) directs each Metropolitan Planning Organization (MPO) to develop a Federal Transportation Improvement Program (FTIP) every four years; and

WHEREAS, the California Streets and Highways Code Section 182.6(e) and Section 182.7(d) directs each MPO to submit an updated FTIP to the California Department of Transportation by August 1, on even-numbered years; and

WHEREAS, the FTIP is a four-year program of projects prioritized in accordance with federal planning regulations; and

WHEREAS, in order to qualify for federal transportation funding, projects must be included in an FTIP approved by the Shasta Regional Transportation Agency (SRTA), the California Department of Transportation, and the United States Department of Transportation; and

WHEREAS, the 2015 FTIP includes standards to process administrative modifications for minor changes in project scope, cost and schedule without formal board action, as well as a process for the executive director to approve formal amendments; and

WHEREAS, Shasta County is in conformance with federal air quality standards;

NOW, THEREFORE, BE IT RESOLVED that the Shasta Regional Transportation Agency finds the 2015 FTIP:

1. Consistent with metropolitan transportation planning regulations in 23 Code of Federal Regulations Part 450;
2. Consistent with the 2010 Regional Transportation Plan, which forecasts transportation improvement needs through 2030;
3. To be financially constrained, with the financial summary affirming that funds are available;
4. To not require an air quality conformity determination or demonstration of timely implementation of transportation control measures, as the area is in conformance with federal air quality standards; and
5. To be prepared in accordance with the SRTA's 2013 Public Participation Plan.

PASSED AND ADOPTED this 24th day of June, 2014, by the Shasta Regional Transportation Agency.

Susie Baugh, Chair
Shasta Regional Transportation Agency

Section 1 – Introduction and Overview

The U.S. Department of Transportation (DOT) has designated the Shasta Regional Transportation Agency (SRTA) as the Metropolitan Planning Organization (MPO) for Shasta County and its three incorporated cities—the cities of Anderson, Redding and Shasta Lake. As the MPO, SRTA is required to prepare a Federal Transportation Improvement Program (FTIP) every four years in accordance with Section 450.324 of the Metropolitan Transportation Planning regulations. The California Streets and Highways Code requires an update to the FTIP every two years. The FTIP must include all transportation-related projects with federal funding, or that are regionally significant. The FTIP indicates the area's short-term plan for use of federal dollars and other resources for the maintenance, operation, and improvement of the transportation system.

This FTIP and public review satisfy the Program of Projects, or POP, needed for RABA's use of FTA 5307 funds.

The FTIP also serves as the Program of Projects (POP) for federal funds, including the Redding Area Bus Authority's (RABA's) use of Federal Transit Administration (FTA) Section 5307 formula funds for both operating and capital assistance. Public notification regarding the availability of the draft FTIP, including both the time established for public review and comment and the public hearing held for the document, satisfies both RABA's and SRTA's need to produce POPs for FTA 5307 funds.

FTIP Requirements

The FTIP is required to identify transportation projects with federal funding, or that are regionally significant, over the next four federal fiscal years (FFYs). Projects identified beyond the four year cycle are provided for information. Only projects with a dedicated funding are allowed in the first fiscal year, and projects in the second, third and fourth year are to have a firm funding commitment, or a reasonable expectation of funding availability. Appendix A was developed using the California Transportation Improvement Program System (CTIPS) and represents the projects included in this FTIP. Appendix B shows tables of projects included under the FTIP grouped project listings—those FTIP projects for which one FTIP listing covers multiple projects under that category. Projects within the FTIP are required to be consistent with SRTA's long-range Regional Transportation Plan (RTP) for Shasta County.

SRTA's metropolitan planning area includes all of Shasta County as shown in Figure 1. Figure 2 shows the County's urban area at a larger scale. The Shasta County FTIP is not subject to the conformity requirements of 40 Code of Federal Regulations (CFR) 93, as the region is in attainment for the federal, eight-hour ozone air quality standard. As such, the application of Transportation Control Measures does not apply. Additionally, Shasta County, located in the Sacramento Valley Air Basin, is classified under federal standards as unclassified for carbon monoxide. Shasta County is also currently unclassified/attainment under the federal PM_{2.5} and PM₁₀ standard (Appendix C).

Figure 1 - SRTA Metropolitan Planning Area

Figure 2 - Shasta County Urban Area

FTIP Development

Preparation of the FTIP, and its subsequent amendments, are based on input from the region's three cities (Anderson, Redding, and Shasta Lake), the county of Shasta, the California Department of Transportation (Caltrans), the Redding Area Bus Authority (RABA), SRTA's Technical Advisory Committee (TAC), federally recognized tribal governments (the Pit River Tribe and Redding Rancheria), federal agencies, members of the general public, and various transportation-related interest groups.

Projects identified in the FTIP are consistent with the 2010 Regional Transportation Plan for Shasta County (RTP). The RTP is a long-range comprehensive transportation plan, which includes actions to promote future development of all transportation modes based on anticipated funding levels. In accordance with federal regulations, the RTP is currently undergoing update and will be presented to the SRTA Board of Directors for approval at its meeting on February 24, 2015. The update will include a "sustainable communities strategies" (SCS) component in compliance with Senate Bill 375 – The Sustainable Communities and Climate Protection Act of 2008. The SCS component will contain land use, housing and transportation strategies that will assist the region in meeting its greenhouse gas emission reduction targets.

Public Involvement and Interagency Consultation

The FTIP has been developed pursuant to SRTA's 2013 Public Participation Plan. It may be reviewed on the SRTA website at <http://www.srta.ca.gov/pastel/Final%202013%20PPP.pdf>. SRTA's consultation and public participation procedures require FTIP input from all levels of

government, the public, and SRTA's state and federal partners. Agencies consulted during development of the FTIP include: the cities of Anderson, Redding, and Shasta Lake; the county of Shasta; Caltrans; RABA; the Federal Highway Administration (FHWA); the Federal Transit Administration (FTA); the Pit River Tribe; the Redding Rancheria; the National Park Service; the United States Forest Service; the Bureau of Land Management; California State Parks; various private transportation interests; and the general public. Prior to adoption, a public comment period of thirty days and a public hearing is required to solicit input. In addition to notifying the FTIP contact list, posting the draft on the SRTA website, and holding a public hearing, announcements in local newspapers are run prior to adoption of the FTIP (Appendix D).

The FTIP is derived from projects included in the RTP, transit development plans, the Regional Transportation Improvement Program (RTIP), the State Transportation Improvement Program (STIP), the State Highway Operation and Protection Program (SHOPP), and various local

assistance-related planning processes—all of which involve extensive public outreach including agency agendas, public hearings, working groups, and advertised comment periods.

Environmental Justice

Executive Order 12898 of February 11, 1994 requires that agencies receiving federal dollars shall, to the greatest extent possible, administer and implement their programs, policies, and activities that affect human health or the environment so as to avoid “disproportionately high and adverse human health or environmental effects” on minority and low-income populations. SRTA, and its partner agencies, address Environmental Justice (EJ) throughout the transportation planning and programming process—primarily through public outreach and interagency consultation. The public participation process outlined in the SRTA Public Participation Plan, as discussed above, is followed in the development of SRTA plans and programs, affording all segments of the population opportunity to provide input on the development of them.

Status of Projects from the 2013 FTIP

The 2013 FTIP, which began in the 2012/13 federal fiscal year (FFY), included a number of transportation projects and programs that have been authorized, obligated and constructed/implemented. Those projects or project phases that are not expected to be obligated by October 1, 2014, are included in the 2015 FTIP. A listing of previously obligated projects for the last two federal fiscal years is included in Appendix E.

Exchange of Federal Funds for State-Only Funds

As the urbanized population of the Shasta region is under 200,000, SRTA is eligible to participate in a Caltrans program to exchange federal Regional Surface Transportation Program (RSTP) funds for state funds. Exchanging federal funds for state dollars allows greater flexibility on smaller-scale street and road projects, and projects under Article 19 of the State Constitution.

Amendment and Project Selection Procedures

Under Section 2 - Amendment and Project Selection Procedures of this FTIP, procedures for the amendment of the FTIP, as well as procedures for the selection and priority of projects, are outlined. This section discusses both administrative modifications and formal amendments, and also includes discussion of Expedited Project Selection Procedures (EPSP).

Action Element

As discussed in Section 3 - Action Element, the FTIP is organized by projects listed either individually as line items, or combined into grouped project listings of similar air quality conformity exempt projects. Each entry includes a summary of the transportation expenditures

by fund type. Identified projects have been produced in the California Transportation Improvement Program System (CTIPS) database (Appendix A).

These projects are to be implemented by the cities, county, Caltrans, RABA and other public and private agencies that maintain, operate, and improve the transportation system in Shasta County. Appendix B includes specific project information for grouped project listings from Appendix A.

Financial Element

As discussed in Section 4 - Financial Element, the FTIP Financial Element (Appendix F) is a four-year summary of transportation expenditures and revenues for Shasta County beginning in the 2014/15 federal fiscal year (FFY). Based on the program revenues and expenditures for the applicable FTIP funding programs, Shasta County's anticipated federal fund expenditures match the anticipated revenues, and thus satisfy the requirements for the FTIP to be financially constrained. Where required, local matching funds are identified and included in the total cost of the program.

Section 2 – Amendment and Project Selection Procedures

Delegated Authority for FTIP Administrative Modifications and Formal Amendments

In the event that a project in the FTIP needs to be modified, such as to include a change in description, scope, funding or schedule, or to add a new project, SRTA has developed a process that will be used for both formal and administrative amendments consistent with standard Caltrans amendment procedures.

Administrative Modifications: The 2015 FTIP includes a project amendment procedure to allow streamlined amendments if changes are sufficiently minor to qualify as an administrative modification under standard Caltrans amendment procedures. In this case, the amendment may be processed through an administrative modification, as opposed to a formal amendment. On January 9, 2012, SRTA received delegated authority by Caltrans to approve administrative modifications (Appendix G). As the SRTA Board of Directors previously provided delegation authority to the executive director for these administrative modifications, the Caltrans delegation effectively gives the

RESOLUTION

RESOLUTION NUMBER: 13-14
SUBJECT: Delegation of Authority to Executive Director to Approve Federal Transportation Improvement Program (FTIP) Formal Amendments

WHEREAS, the Shasta Regional Transportation Agency (SRTA) has been designated as the Metropolitan Planning Organization (MPO) for Shasta County pursuant to 23 USC Section 5304(a) and (b); and

WHEREAS, Title 23 Code of Federal Regulations, Part 630 requires the preparation and adoption of a four-year Federal Transportation Improvement Program (FTIP) by the MPO to become part of the Federal-Statewide Transportation Improvement Program (ISTIP); and

WHEREAS, in order to be consistent with the State Transportation Improvement Program (STIP), the FTIP must be updated every two years; and

WHEREAS, SRTA is responsible for preparing and processing administrative modifications and formal amendments to the FTIP; and

WHEREAS, SRTA's governing board of directors may delegate approval of formal amendments to the FTIP to the executive director of SRTA; and

WHEREAS, the meeting schedule of the SRTA Board of Directors can make it difficult to bring forward formal FTIP amendments in a timely manner;

NOW, THEREFORE, BE IT RESOLVED that the Shasta Regional Transportation Agency delegates authority from the SRTA Board of Directors to the executive director to approve formal amendments to the FTIP under the following criteria:

1. Programming revisions will be consistent with federal and state allocations, and prior SRTA actions;
2. Federal and state FTIP requirements would continue to be followed, as well as SRTA's public participation process; and
3. The executive director will prepare and refer to the SRTA Board of Directors any amendment where such a request is made during the public participation process.

PASSED AND ADOPTED this 10th day of December, 2013, by the Shasta Regional Transportation Agency:

Greg Watson, Chair
Shasta Regional Transportation Agency

SRTA executive director authority to approve administrative modifications, allowing for faster programming and project delivery for minor project changes.

Formal Amendments: In addition to administrative modifications, the SRTA executive director is able to approve formal amendments through authority delegated by the SRTA Board of Directors. Upon approval of the formal amendment, the executive director forwards the amendment to Caltrans for review and recommendation of approval to the U.S. Department of Transportation. This authority was delegated to the SRTA executive director December 10, 2013 through Resolution 13-14 (Appendix H).

The criteria under which the SRTA executive director may approve formal amendments are:

1. Programming revisions will be consistent with federal and state allocations, and prior SRTA actions;
2. Federal and state FTIP requirements will continue to be followed, as well as SRTA's public participation process; and
3. The executive director will postpone and refer the SRTA Board of Directors any amendment where such a request is made during the public participation process.

Amendment Procedures: New Projects

Proponent agencies may propose new projects for inclusion in the FTIP after the document is adopted. In many cases, these new projects are minor safety, emergency, or maintenance projects for which funds can be made available after FTIP adoption. SRTA uses the following procedures to amend such projects, as necessary, into the FTIP:

- The proponent agency will notify the FTIP coordinator of the need to include the new project in the FTIP. This notification shall include the project description, component costs by year, proposed funding source, and anticipated date of construction advertisement or contract execution.
- SRTA shall determine if the proponent agency's request to add a project to the FTIP is fiscally constrained. If so, SRTA would either:
 - Administratively modify the FTIP to add or adjust projects that meet the administrative modification requirements; or
 - Prepare a formal amendment to the FTIP for projects:
 - whose cost change exceeds 40% of the total project cost (or \$10 million);
 - whose scope has changed; or
 - that are a new addition to the FTIP, either stand-alone or grouped project listing.

Administrative Modification and Formal Amendment Procedures

To change the description, funding, and schedule information for projects in the FTIP, SRTA uses the following procedures:

- Agencies notify SRTA in writing of the need to modify or amend a project in the FTIP.

This notification shall indicate the changes needed in the project description, estimated cost, proposed funding sources, anticipated date of construction advertisement, or the anticipated date that the project will be open to the public.

- The SRTA FTIP coordinator will either administratively modify or formally amend the FTIP to make project changes that meet financial constraint as well as to substitute one funding source for another.
- The SRTA FTIP coordinator will ensure that modifications and/or amendments are posted to the SRTA website for access by the board of directors, agency members, partner agencies and the public.

Project Selection Procedures and Project Priorities

The FTIP identifies projects to be implemented using Title 23 and 49 transportation funds. Within the FTIP, projects that are identified in the first year constitute an “agreed to” list of projects for project selection purposes and no further project selection action is required by the SRTA. If, however, Caltrans or local agencies wish to proceed with a project earlier than the year it is programmed in the FTIP, federal planning regulations require that a project selection procedure be developed and used to advance projects that are ready to proceed earlier than anticipated.

The following priorities are established for projects that are shown in the 2015 FTIP:

- All projects shown in federal fiscal year (FFY) 2014/15 in the FTIP Action Element shall have first priority.
- All projects shown in FFY 2015/16 in the FTIP Action Element shall have second priority.
- All projects shown in FFY 2016/17 in the FTIP Action Element shall have third priority.
- All projects shown in FFY 2017/18 in the FTIP Action Element shall have fourth priority.

SRTA and project sponsors shall work to implement projects in the 2015 FTIP in the priority order shown, and will advance additional projects as financial resources allow.

Expedited Project Selection Procedures (EPSP)

Title 23 CFR Part 450 allows for the movement of projects within the four year element of the FTIP, subject to procedures agreed to by the cooperating agencies. This section is to certify that SRTA, as the MPO, has a process in place consistent with Expedited Project Selection Procedures (EPSP) outlined in Title 23 CFR 450.330, per the below (highlighting added).

Title 23: Highways
PART 450—PLANNING ASSISTANCE AND STANDARDS
Subpart C—Metropolitan Transportation Planning and Programming

§450.330 Project selection from the TIP.

(a) Once a TIP that meets the requirements of 23 U.S.C. 134(j), 49 U.S.C. 5303(j), and §450.324 has been developed and approved, the first year of the TIP shall constitute an “agreed to”

list of projects for project selection purposes and no further project selection action is required for the implementing agency to proceed with projects, except where the appropriated Federal funds available to the metropolitan planning area are significantly less than the authorized amounts or where there are significant shifting of projects between years. In this case, a revised "agreed to" list of projects shall be jointly developed by the MPO, the State, and the public transportation operator(s) if requested by the MPO, the State, or the public transportation operator(s). If the State or public transportation operator(s) wishes to proceed with a project in the second, third, or fourth year of the TIP, the specific project selection procedures stated in paragraphs (b) and (c) of this section must be used unless the MPO, the State, and the public transportation operator(s) jointly develop expedited project selection procedures to provide for the advancement of projects from the second, third, or fourth years of the TIP.

(b) In metropolitan areas not designated as TMAs, projects to be implemented using title 23 U.S.C. funds (other than Federal Lands Highway program projects) or funds under title 49 U.S.C. Chapter 53, shall be selected by the State and/or the public transportation operator(s), in cooperation with the MPO from the approved metropolitan TIP. Federal Lands Highway program projects shall be selected in accordance with procedures developed pursuant to 23 U.S.C. 204.

(c) In areas designated as TMAs, all 23 U.S.C. and 49 U.S.C. Chapter 53 funded projects (excluding projects on the National Highway System (NHS) and projects funded under the Bridge, Interstate Maintenance, and Federal Lands Highway programs) shall be selected by the MPO in consultation with the State and public transportation operator(s) from the approved TIP and in accordance with the priorities in the approved TIP. Projects on the NHS and projects funded under the Bridge and Interstate Maintenance programs shall be selected by the State in cooperation with the MPO, from the approved TIP. Federal Lands Highway program projects shall be selected in accordance with procedures developed pursuant to 23 U.S.C. 204.

(d) Except as provided in §450.324(c) and §450.328(f), projects not included in the federally approved STIP shall not be eligible for funding with funds under title 23 U.S.C. or 49 U.S.C. Chapter 53.

(e) In nonattainment and maintenance areas, priority shall be given to the timely implementation of TCMs contained in the applicable SIP in accordance with the EPA transportation conformity regulations (40 CFR part 93).

Projects from the first four years of the 2015 FTIP have been selected using the approved project selection procedures. SRTA and the state have selected all of the projects in the first four years of the FTIP based on the project selection procedures below. It has been agreed by all member agencies represented by SRTA and Caltrans per 23 CFR 450.330(c) that all projects within the first four years of the FTIP may be advanced within the four year element of the Federal Statewide Transportation Improvement Program (FSTIP) subject to the conditions of EPSP outlined below.

The projects within the State Transportation Improvement Program (STIP) may be advanced subject to STIP amendments approved by the California Transportation Commission (CTC). SRTA and Caltrans agree that the Caltrans State Highway Operation and Protection Program (SHOPP) program manager may advance or delay projects within the four-year element of the FTIP without amendment to the FTIP/FSTIP, subject to notification to SRTA. Caltrans Division of Local Assistance has implemented a project selection process to produce a four-year FTIP listing of projects for the Highway Bridge Program (HBP). This process was developed in cooperation with the implementing agencies, FHWA, MPOs, and the HBP advisory committee. SRTA and

Caltrans agree that the Caltrans Division of Local Assistance may move projects on the HBP list within the four year cycle without amending the FTIP/FSTIP subject to consultation with the implementing agencies and SRTA.

Advancement and Selection Procedures

To advance projects shown in the later years of the FTIP into earlier years, SRTA uses the following procedures:

- Project sponsors will notify the SRTA FTIP coordinator of the need to advance a project or project component that is identified in the 2015 FTIP.
- The SRTA FTIP coordinator will determine if sufficient financial capacity exists in the FTIP to advance the project into an earlier year. If sufficient financial capacity does not exist, the SRTA FTIP coordinator shall give the project sponsor the opportunity to identify a project listed in the FTIP within its jurisdiction that can be delayed to allow the other project to advance. SRTA will also survey other jurisdictions to determine any project delays warranting a delay in programming which could allow advancement of the project. If such substitution is not possible, then the SRTA FTIP coordinator shall advise the project sponsor that the project advancement is not feasible.
- If sufficient financial capacity does exist, the SRTA FTIP coordinator shall make changes to the 2015 FTIP to advance projects that meet financial constraint. EPSP allow for the movement of projects within the four year element of the FTIP. The following state-managed programs may be managed with EPSP: all transit programs; SHOPP; Highway Bridge Program (HBP); Highway Maintenance (HM) Program; Active Transportation Program (ATP); Highway-Railroad Grade Separation Program; High Risk Rural Roads Program (HR3); and the Highway Safety Improvement Program (HSIP). The following MPO-managed programs may be managed with EPSP: STIP; FTA; Regional Surface Transportation Program (RSTP); Highway Maintenance (HM); and any other applicable program.
- Consultation for transit projects will be coordinated with RABA and/or FTA before the implementation of EPSP procedures.

Section 3 – Action Element: Project and Grouped Project Listings

The tables in Appendix A have been developed using CTIPS, representing programming for the FTIP period FFYs 2014/15 through 2017/18. Projects are listed either individually or in groups. Grouped projects are non-capacity increasing and categorized by project type such as bridge replacement, adding shoulders or bike lanes, state

highway maintenance or operations, and transit activities. Support tables for grouped project listings are included as Appendix B.

Funding is shown by fund type, phase and year. Project phases are preliminary engineering (PE), including environmental review, right of way (ROW), and construction (CON). Certain projects, such as transit operations, purchase of vehicles, and grouped listings, show construction dollars only. This is because many projects do not require PE or ROW and, in the case of grouped projects, PE and ROW funding needs are sporadic and varied due to multiple projects.

Section 4 – Financial Element

Financial Plans and Financial Constraint

A financial plan is the mechanism for demonstrating financial constraint in the metropolitan transportation planning and programming process. Financial constraint means that there will be sufficient funds to implement proposed improvements, and to operate and maintain the entire system, by comparing costs with available financial resources. Federal agencies are responsible for making a financial constraint determination of the Federal State Transportation Improvement Program (FSTIP), while the state and MPOs are required to demonstrate financial constraint at the FTIP level.

Financial constraint of this FTIP is demonstrated in Appendix F with separate tables delineating “Revenue” (Table 1), followed by “Programmed” (Table 2), and then a comparison of “Revenues vs. Programmed” (Table 3). These tables summarize the revenues anticipated over the four-year period versus a summary of projects programmed. Specific project funding information can be found in the CTIPS project printouts in Appendix A.

FTIP Programming Fund Sources

State Transportation Improvement Program (STIP): The CTC developed the 2014 STIP Fund Estimate to define the financial capacity to program STIP projects utilizing state and federal funds. STIP projects also include Regional Improvement Program (RIP) projects selected by SRTA and Interregional Improvement Program (IIP) projects selected by Caltrans and the CTC. The STIP is a five-year program, but is fiscally constrained by year on a statewide basis. There are currently no IIP funds committed to STIP projects within the Shasta region. For the four-year FTIP cycle 14/15—17/18, the programming amounts for the region are:

STIP: RIP Total	\$16,607,000
STIP: IIP Total	\$ 0

State Highway Operation and Protection Program (SHOPP): Caltrans provided SRTA with estimated funding for the four-year period of the FTIP through the 2014 SHOPP. The funding estimated by Caltrans is shown in the FTIP together as a lump sum, since all projects are non-

capacity increasing and involve maintenance and operation of the state highway system.
Available SHOPP funds total:

SHOPP	\$127,387,000
-------	---------------

Federal Transit Administration (FTA): SRTA, in coordination with Caltrans, and RABA—the administrator for the public mass transit system in Shasta County—is responsible for preparing the projected funding to be used in the FTIP. For the purposes of the FTIP, SRTA and RABA are using historical trends as the basis for estimating FTA capital and operating funds. The following figures are estimated to be available for the four-year period of the FTIP:

Section 5307 – Urbanized Area Formula	\$3,208,000
Section 5310 – Mobility of Seniors and Individuals with Disabilities	\$2,000,000
Section 5311 – Rural Areas Formula	\$1,600,000
Total FTA	\$6,808,000

Section 5307 funds are based on historical trends for RABA’s operating and capital improvement program. Though Section 5310 funds are competitive, SRTA has been successful in demonstrating a need for and securing Section 5310 funds every year. FTA Section 5310 funds will be augmented in future grant cycles with the former FTA 5317 New Freedom program which was subsumed under Section 5310 under the “Moving Ahead for Progress in the 21st Century” (MAP-21) Act. Section 5311 apportionments have been relatively stable, and all of these funds are reasonably expected to be available for transit operations or other transit-related activities in rural areas. FTA Section 5311 funds will be augmented in future grant cycles with the former FTA 5316 Jobs Access and Reverse Commute program which was subsumed under Section 5311 under MAP-21.

Highway Bridge Program (HBP): HBP funds are not apportioned to regions and, as such, Caltrans develops a constrained statewide list of local HBP projects for each four-year cycle. Consistent with this listing, local lump sum projects in Shasta County are programmed in the FTIP totaling:

HBP – Local	\$4,451,000
-------------	-------------

Federal Highway Non-Discretionary Programs: Projects of this type fall into one of three separate categories and can include grant awards from the following programs: High Risk Rural Roads (HR3) and the Highway Safety Improvement Program (HSIP). The following figures are estimated to be available for the four-year period of the FTIP per the Office of Federal Transportation Management Program (OFTMP):

HRRR (HR3)	\$ 0
HSIP	\$ 3,842,000

Safe Routes to School Funding (SRTS): Under MAP-21, various non-motorized federal funding sources were consolidated under the Active Transportation Program (ATP). One of these sources was the federal Safe Routes to School (SRTS) Program under which both the city of Redding and the county of Shasta were previously successful in receiving discretionary awards. Of three awards—two to the city, and one to the county—the city has residual unobligated

SRTS funding for FY 2014/15.

SRTS	\$ 405,000
------	------------

Non-Federal Revenues: The purpose of identifying these revenue sources is to document the funding that will be used as the match requirement for the federal funds identified above. It also shows funding that may be used for “advanced construction” whereby local funds are used in advance of federal obligation and reimbursement to occur at a later date. Programmed local funds are as follows:

Transit Fare Revenue	\$ 3,744,000
State Bond Funds for Transit	\$ 560,000
Local Transportation Funds (LTF)	\$ 1,149,000
Transportation Development Act (TDA)	\$16,060,000
Private Funds	\$ 500,000
Non-Federal Total	\$22,013,000

The local fund amounts above represent only the amounts potentially contributing to projects listed in the FTIP and not all funding sources available. A more comprehensive and long-term list of local, state, and federal funding for transportation can be found in the financial element of SRTA’s RTP.

Financial Guidelines to Identify Cost to Maintain and Operate the System of Federal Aid Facilities

Federal regulations require the FTIP to identify costs for maintaining and operating the system of federal-aid facilities. SRTA’s basis for the calculations of operations and maintenance needs, analysis of revenues dedicated for projects included in the FTIP, and plans to address shortfalls are described in the following section.

Operations and Maintenance Costs:

In the financial element of SRTA’s 2010 RTP, operations and maintenance funding for the region was discussed and summarized as shown in Figure 13 for FY 2014. The unfunded total represents the local needs for roadway networks in the region and uses a 1.012 growth factor.

Figure 3

Federal Aid Facilities Maintenance and Rehabilitation Expense and Unfunded or Deferred Maintenance

Jurisdiction	Estimated Current Total Maintenance/Rehab	Estimated Current Year Available Funding for Maintenance/Rehab	Estimated Unfunded or Deferred Maintenance
Anderson	\$ 4,629,070	\$ 498,000	\$ 4,131,070
Redding	\$ 61,770,948	\$ 5,862,000	\$ 55,908,948
Shasta Lake	\$ 17,459,036	\$ 470,000	\$ 16,989,036
Shasta County	\$ 168,458,532	\$ 7,828,000	\$ 160,630,532
Total	\$ 252,317,586	\$14,658,000	\$ 237,659,586

Shasta County utilizes a Caltrans-maintained Pavement Management System (PMS) as a guide to determine where best to apply its maintenance dollars for resurfacing and overlays. The county generally focuses its overlays on major roads, with slurry, chip and cape seals primarily used for minor and residential roads. The county has also used asphalt rubber slurry seals and may try using asphalt rubber chip seals to improve durability at higher elevations where winter snow is prevalent.

Caltrans reported for SRTA's 2010 RTP that short range SHOPP projects currently exceed over \$206 million of the needs that have been identified, but not programmed. The responsibility of maintaining the state highway system rests with Caltrans, however its partnership with local agencies on safety projects has provided signalization at key intersections that access state facilities.

Local bridge construction needs total almost \$110 million in the RTP's twenty year horizon; the current HBP estimate in the FTIP for the first four years equals \$4,451,000.

With a finding of no unmet transit needs, or a finding of unmet needs that are unreasonable to meet, Transportation Development Act (TDA) funding provides for other uses, including roadway maintenance in the cities and county.

Efficient operation and maintenance of federal aid routes in other regions are often aided by sales tax measures that are earmarked for improvements to the streets and highway systems, and/or improving public transit and maintenance. At this time, passage of this type of measure in Shasta County is unlikely, unless the transportation system severely deteriorates. SRTA has previously hosted a transportation forum and invited subject matter experts to present the pros and cons of self-help funded strategies. While the message was heard by the region's decision makers, support for new taxes is hard to gain. SRTA has set a policy to support state and federal levels to establish a broader funding base beyond fuel taxes to fund transportation.

Financial Uncertainties

This FTIP is based on reasonably anticipated revenue sources identified above. However, it is important to note that events such as economic downturns, disasters or other unforeseen events can shift funding away from transportation. Federal appropriations are conducted annually, as is California's annual budget. As such, the figures represent the best available information as of June 2014.

The FTIP is a living document that can, or may, be amended by the SRTA executive director or board of directors at any time. This flexibility is essential for the ability to deliver projects in a timely manner or to modify projects, as necessary, while keeping the public informed of these actions.

Final Escalation for Revenue and Cost

23 CFR Section 450.324(h) requires an inflation rate to reflect “year of expenditure dollars”. Year of expenditure dollars are subsumed into the project expenses for STIP, SHOPP, and other Caltrans-generated projects in the FTIP. To be conservative, locally- and state-generated funds are held constant over the four active years of the FTIP.

Comments:

***** Version 1 - 05/12/14 *****

Project data transferred from 2012 FTIP. Updated with 14/15 estimated RABA budget figures. JARC (FTA 5316) prior year \$60K combined with prior year 5311. NF (5317) prior year \$119K renamed 5310 for grouped listing. Both revisions consistent with MAP-21 subsuming JARC and NF under 5311 and 5310 programs, respectively.

***** Version 7 - 04/29/2014 *****

Increased FTA 5311 apportionment for FY 2014; carry through to FY 2016.

***** Version 6 - 09/23/2013 *****

Toll credits being used (50%) for: SSNP 12/13 NF award (\$58,322) and Golden Umbrella 12/13 JARC award for Sr. Companion Program (\$28,510). No toll credits for GU 12/13 JARC award for Foster Grandparent Program (\$31,983).

CTIPS No 211-0000-0074

Agency	County-Route-Postmile	Dist - EA	Performance Measure	Project Description	Purpose/Need	PE	R/W	CONSTRUCTION	FY					TOTAL
									14/15	15/16	16/17	17/18	18/19	
Caltrans	SHA -005-29.5/30.0 & 45.5	02-0E090	2 Bridges	Near Shasta Lake, at Sidehill Viaduct No. 08-0042L; also at Dog Creek Bridge No. 06-0027 (PM 45.5). Seismic retrofit bridges.	Both Dog Creek Bridge and Sidehill Viaduct are seismically deficient and in need of strengthening. This project will perform the appropriate seismic retrofit to withstand the Maximum Credible Earthquake (MCE) Magnitude of 6.0. This project at Sidehill Viaduct will also address bicycle traffic by installing Tubular Bicycle Rail. It will also improve the cross slope drainage by removing the existing asphalt concrete wearing surface and replacing it with a polyester concrete overlay.	\$1,949	\$134	\$12,731	\$14,814					\$14,814
Caltrans	SHA -005 - R13.95/53.3 and SIS -005-2.92/R65.62	02-4F610	16 Bridges	In Shasta and Siskiyou Counties at various locations. Bridge maintenance.	Deficiencies in multiple bridge within the project limits have been identified through routine bridge inspections. These deficiencies include unsound concrete, loose and broken concrete, ineffective joint seals, exposed rebar and distressed asphalt concrete overlays. This project proposes to remove the existing asphalt concrete overlays, repair unsound concrete, place polyester concrete overlays and repair joint seals. Additional work will be performed to accommodate any needs with the transition onto the bridge decks, such as approach/departure conforms and metal beam guard rail modifications.	\$730	\$36	\$5,290	\$6,056					\$6,056
Caltrans	SHA - 044 - 59.6	02-4F200	1 Bridges	In Shasta County near Old Station at Hat Creek Bridge No. 06-0084. Replace bridge.	The purpose of this project is to replace the bridge to maintain mobility and connectivity on State Route 44 without load restrictions. The girders exhibit significant deterioration and the bridge rails do not meet current standards. Further deterioration of the structure will eventually lead to permit load limitations and bridge closure.	\$1,400	\$497	\$5,300				\$7,197		\$7,197

Shasta RTPA Group Projects Listing for Safety Improvements - SHOPP (Collision Reduction Program) 2015 FSTIP
CTIPS No 211-0000-0075

Agency	County-Route-Postmile	Dist - EA	Performance Measure	Project Description	Purpose/Need	PE	R/W	CONSTRUCTION	FY					TOTAL
									14/15	15/16	16/17	17/18	18/19	
Caltrans	SHA-299-47.5/48.1	02-4E890	24 Collisions Reduced over 20 years	Near Ingot, from 5.0 miles to 4.3 miles west of Buzzard Roost Road. Curve improvement.	This project proposes to reduce the frequency and severity of accidents by increasing three curve radii, correcting super-elevations, increasing the transition lengths, widening shoulders, and installing or extending Metal Beam Guard Railings.	\$397	\$327	\$2,621	\$3,345					\$3,345
Caltrans	SHA-44-59.0/59.4	02-4F290	16 Collisions Reduced over 20 years	Near Old Station, from 0.7 mile west to 0.2 mile west of Hat Creek Bridge. Improve geometrics, super-elevations, widen lanes and paved shoulders.	This project proposes to reduce the frequency and severity of accidents by widening the paved surface, improving the alignment geometrics, super elevation rates, and super elevation transition.	\$407	\$75	\$1,950	\$2,432					\$2,432
Caltrans	SHA-005, 299 BUT-70, LAS-36, PLU-70 - Various Locations - See List Below	02-4E812	Improve Worker safety at 7 locations	In Shasta, Butte, Lassen, and Plumas, Counties at various locations. Construct roadside paving and installing lighting	The primary purpose of this project is to reduce the frequency and duration of highway worker's exposure to traffic by providing features to reduce recurrent maintenance exposure and provide safe access at chain control areas. By widening installing lighting and additional signs.	\$1,000	\$160	\$3,900	\$5,060					\$5,060
Caltrans	SHA-44-45.1/45.4	02-4G490	18 Collisions Reduced over 20 years	In Shasta County near Viola from 1.5 miles to 1.1 miles West of North Battle Creek Reservoir Road. Curve Improvement.	This project proposes to reduce the frequency and severity of accidents by improving the roadway geometrics by increasing the middle curve radius, increasing the tangent lengths between curves, improving the super-elevation rates and transitions, and increasing the clear recovery with the addition of 4-ft paved shoulders.	\$600	\$144	\$1,836	\$2,580					\$2,580
Caltrans	SHA, BUT, LAS, SIS, TRI - Var- Various Locations.	02-4F780	Improve Worker safety at 18 locations	In Shasta, Butte, Lassen, Plumas, Siskiyou, and Trinity Counties at various locations. /Upgrade Chain Control facilities. Primary work is in Shasta County.	During winter storms 80% of District 2's 1,734 centerline miles can have chain control requirements. At the 168 chain control areas located throughout the District, highway workers are required to do many "boots on the ground" activities that expose them to the adverse weather conditions and live traffic. In many locations these chain control areas lack paved shoulders, lighting, pavement and accessible signing packages. This project proposes to deploy one electronic traffic management System on I-5 in Shasta County. Improvements at 16 other chain control locations include shoulder widening, permanent sign package upgrades and at some locations lighting.	\$2,270	\$526	\$8,810				\$11,706		\$11,706
Caltrans	Shasta - 5 - 0.0/67.0 at Various Locations	02-4F510	402 Collisions Reduced over 20 years	In Shasta County in and near Redding from Tehama County line to Siskiyou County Line. / Improve Clear Recovery Zone.	Approximately 120-150 locations in Shasta County on Interstate 5 do not meet current standards for clear recovery zone (CRZ). It is proposed to create traversable clear recovery zones by either installing metal beam guard rail or modification of slopes.	\$1,225	\$655	\$6,300				\$6,380		\$6,380

CTIPS ID: 211-0000-0083
2012/13-2017/18 Highway Bridge Program

See the appropriate FTIP/FSTIP for current funding commitments. This listing provides the backup project information to support the lump sum amounts programmed in the FTIP.

4/2/2014, 9:40 AM

- Notes: 1) This is the FTIP lump sum "backup" list for HBP funded projects. Please see the Local Assistance web site for the most current listings:
http://www.dot.ca.gov/hq/LocalPrograms/hbrr99/HBP_FSTIP.html
- 2) The purpose of this list is to show which projects being advanced by local agencies have met the eligibility requirements of the federal Highway Bridge Program and have been prioritized for funding by the Department in cooperation with local agencies for funding.
- 3) Contractual funding levels are determined at time of federal authorization/obligation for given phase of work. For details see Chapter 3 of the Local Assistance Procedures Manual.
- 4) For FTIP/FSTIP purposes, Federal Highway Bridge Program (HBP) funding constraint is managed by Caltrans.
- 5) Prop 1B bond funds for the Local Seismic Safety Retrofit Program (LSSRP) used for matching federal funds are also managed by Caltrans.
- 6) Financial constraint of LOCAL matching funds (including regional STIP funds) and LOCAL Advance Construction (AC) is the responsibility of the MPOs and their local agencies.
- 7) Some projects show that they are programmed using State STP funds. These funds are HBP funds transferred to the STP for bridge work that is not ordinarily eligible for HBP funds. See the HB Program Guidelines for details. Do not confuse these STP funds with Regional STP funds.
- 8) Corrections to this report should be addressed to the District Local Assistance Engineer:
<http://www.dot.ca.gov/hq/LocalPrograms/dlae.htm>

2012/13-2017/18 Highway Bridge Program

Subject: Response to CT HQ Review Comments on SRTC's Draft 2015 FTIP

Hello, Abhijit – For the Final 2015 FTIP for Shasta County, as approved by the Shasta Regional Transportation Planning Agency's (SRTC's) Board of Directors on June 24, 2014, please find the following responses below to Caltrans, Office of Federal Transportation Management Program's May 29, 2014 comments on the draft 2015 FTIP. Thank you for taking the time to review the draft, and for providing your assistance.

Three copies of the Final 2015 FTIP for Shasta County will be forwarded to Mr. Muhaned Aljabiry of your office, to your attention—most likely in tomorrow's mail.

Please let me know if you have any further questions.

Thanks,
Kathy

Subject: Review comments on SRTC's Draft 2015 FTIP

Hello Kathy,

Thank you very much for providing us an opportunity to review SRTC's Draft 2015 FTIP.
Please include response to the comments below when submitting final 2015 FTIP to Caltrans.

Let me know of any questions. Thank you.

General comments:

1. Administrative Modifications, Page 6: Include language that states that SRTC's executive Director has received delegated authority from Caltrans to approve the Administrative Modifications for the FSTIP.
On page 6, the draft FTIP included language about the January 9, 2012 delegated authority Caltrans provided SRTC to approve administrative modifications to the FSTIP. SRTC staff has added the following language to the final FTIP: "As the SRTC Board of Directors previously provided delegation authority to the executive director for these administrative modifications, the Caltrans delegation effectively gives the SRTC executive director authority to approve administrative modifications."
2. EPSP, Page 9: Add Highway Maintenance (HM) Program, Active Transportation Program (ATP), and Highway-Railroad Grade Separation Program to the list of Caltrans managed programs. Remove Section 130 – STP railroad program and Hazard Elimination and Safety Program (HES) from the list.
Revision completed on page 10 of document, as requested.
3. Satisfying Public participation requirement for development of the Program of Projects (POP) for FTA 5307 Program through FTIP Development: Ensure that
FTIP explicitly states that public notice of public involvement activities and time established for public review and comment for the FTIP will satisfy the POP requirements of the Section 5307 Program.

Language in the draft 2015 FTIP noted that the FTIP and its public review satisfy the POP requirements of the FTA Section 5307 program. SRTA staff has added the language, "...including both the time established for public review and comment..." to the original description for the final 2015 FTIP.

Financial Summary:

1. SHOPP: 2014 SHOPP Reports at the link below show revenue and programming in the amount of \$32,244,000 for FY 2014/15. Please clarify why the financial summary show the amount of \$38,247,000 for FY 2014/15.
<http://www.dot.ca.gov/hq/transprog/federal/fedfiles/2014-shopp-grp/shasta.pdf>
SRTA staff based SHOPP programming for the draft 2015 FTIP on both the 2014 SHOPP and the information provided SRTA by Caltrans, District 2. The final FTIP includes SHOPP funding based on Caltrans SHOPP funding/project input. Taking note of the CFPG meeting yesterday where the topic of Caltrans state-managed programs and programming based on Caltrans, HQ vs. district input was discussed, any additional SHOPP programming revisions required may be addressed in amendment no. 1 to the 2015 FTIP.
3. State Other: Include \$407,000 of PTMISEA funding in FY 2014/15 under "State - Proposition 1B".
The Revenue Appendix worksheet to the revenue table of Table 1 – Revenue (of the draft FTIP) included the \$407K in 14/15 under "Public Transportation MISEA" of appendix 3 – State Other. SRTA staff has added Proposition 1B in front of that description for clarification.
4. Federal Transit: 5310 Program funding is awarded by CTC on an annual basis. Explain the basis of revenue/programming for the 4-year cycle of the 2015 FTIP.
In Shasta County, eligible applicants have been successful, over multiple years, in securing FTA Section 5310 awards. Therefore, including a projection of 5310 funding over the next four years is based on historical receipt and can thus be expected to be reasonably available. This practice continues from the adoption of the 2013 Shasta County FTIP.

Project Listings:

1. Grouped Project Listings: For MPO areas classified as air quality attainment (areas that are not classified as "maintenance"), projects that can be classified as "Categorical Exclusion (CE)" per 23 CFR 771.117 (c) and (d) can be grouped together by CE classifications. Please see links below for guidance. Please make sure that all of the grouped project titles and descriptions (e.g. SHOPP, FTA grouped project listings) are consistent with the attached guidance.

http://www.dot.ca.gov/hq/transprog/federal/fedfiles/res_publications/grouped_pjt_listings.pdf

<http://www.ecfr.gov/cgi-bin/text-idx?SID=c6c260b53ded90a37f3d26961b1407f3&node=23:1.0.1.8.43.0.1.9&rgn=div8>

The grouped project listing titles from the 2013 FTIP were brought forward for the 2015 draft FTIP. Per the links you provided, multiple grouped project listing titles were revised to exactly match the grouped project titles and descriptions included within the guidance.

5. Include RTP reference information (RTP Project number or RTP Page Number) in the "Project Description" or under "MPO Comments" in CTIPS.
Completed, as requested.
3. CTIPS Ids: 211100000059, 211100000061: Provide details for the bus purchase such as fuel type, no. of passengers. See page 3 of 8 of the guidance posted at the link below.
http://www.dot.ca.gov/hq/transprog/federal/fedfiles/res_publications/2015-ftip-dev-guide.pdf
Completed.
4. CTIPS Id 21100000075: The funding programmed in FY 2014/15 for this project is not consistent with the 2014 SHOPP Report posted at the link below. Please clarify.
<http://www.dot.ca.gov/hq/transprog/federal/fedfiles/2014-shopp-grp/shasta.pdf>
See the response to comment under Financial Summary 1. SHOPP.

5. CTIPS Id: 2110000100: Change the fund type from “RIP – NHS” to “RIP State Cash” per guidelines (Page 6 of 8) below.

http://www.dot.ca.gov/hq/transprog/federal/fedfiles/res_publications/2015-ftip-dev-guide.pdf

Completed.

6. CTIPS Ids: 21100000101, 21100000102: Change “RIP-NHS” fund type to “STIP AC-RIP” per guidelines noted in No. 5 above.

Completed.

7. CTIPS Id: 11100000114: For Planning Studies (non-transportation capital), check to ensure that these projects have been considered for inclusion in the Overall Work Program (OWP) rather than the FTIP.

Completed. Yes, this project is in the FY 2014/15 SRTA OWP.

8. CTIPS Id: 21100000061: FTA 5310 Program funding is awarded by the CTC on an annual basis. Explain the basis of programming in each year of the 2015 FTIP. Also modify the project description by removing "Will include FTA 5310 and former FTA 5316 (New Freedom) funding", as this funding is not available at this time.

See response above under Caltrans' Financial Summary comment 3. Federal Transit for the first of the two comments. The second comment has been addressed in the CTIPS project description and comment field.

9. CTIPS Id: 21100000083, 21100000078, 21100000093, 21100000095: Modify the project title to include "Grouped Project" instead of "GP".

Completed. The description of these grouped project listing titles had been brought forward from the 2013 FTIP.

10. CTIPS Id: 21100000057: Clarify why "Capacity Increase Project" box is checked in CTIPS.

Again, another item that was brought forward from the 2013 FTIP. It has been corrected.

STAFF REPORT

MEETING DATE:	6/24/14
SUBJECT:	Adopt the 2015 Shasta County Federal Transportation Improvement Program (FTIP)
AGENDA ITEM:	7
STAFF CONTACT:	Kathy Urlie, Senior Transportation Planner

SUMMARY:

As the Metropolitan Planning Organization (MPO) for the Shasta region, Shasta Regional Transportation Agency (SRTA) is required to prepare a Federal Transportation Improvement Program (FTIP) every two years. The 2015 FTIP (attached) has been prepared in conformance with federal regulations.

STAFF RECOMMENDATION:

It is recommended that the board of directors:

1. Hold a public hearing;
2. Adopt Resolution No. 14-05 adopting the Shasta County 2015 FTIP; and
3. Authorize the executive director to make minor revisions and administrative modifications to the 2015 FTIP in response to the comments received through the board of directors June 24, 2014, meeting.

DISCUSSION:

The FTIP is a four-year program of transportation projects that have a federal funding component, or that are considered regionally significant. The FTIP is updated every two years and must be approved by SRTA as the region's federally-designated MPO.

SRTA has little discretion to change FTIP project selection and priorities; most are set by the delivering agencies in accordance with federal and state funding requirements. However, projects outlined in Appendix A of the 2015 FTIP do include projects approved by the SRTA Board of Directors, such as the Interstate 5 Redding to Anderson "Little Easy" Six-Lane Project.

SRTA is responsible to ensure that the FTIP is consistent with anticipated revenues and to provide an opportunity for public review and comment. The 2015 FTIP programs funds for federal fiscal years 2014/15 to 2017/18. Revenues expected from federal, state, and local sources are projected to be adequate to implement the proposed improvements. The programming financial table (see attached 2015 FTIP, Appendix F – Table 2) forecasts a total programming capacity of \$182.4 million over the four-year period. This includes \$21.5 million in local funds and \$160.9 million in state and federal funds.

The 2015 FTIP was distributed to interested agencies with a 30-day comment period consistent with SRTA's Public Participation Plan. Comments received to-date involve technical corrections from Caltrans.

ALTERNATIVES:

The board of directors may continue the item and request additional information. This would require a special meeting prior to this year's final 2015 FTIP submittal deadline to Caltrans of no later than October 1, 2014.

OTHER AGENCY INVOLVEMENT:

The Technical Advisory Committee (TAC) concurs with the staff recommendation. The FTIP is a product of extensive interagency consultation associated with other plans and programs, including the Regional Transportation Plan and the Regional Transportation Improvement Program.

FINANCING:

FTIP projects are primarily funded from state and federal sources generated by taxes levied on fuel. The 2015 FTIP programs \$182.4 million over the four-year period.

Daniel S. Little, AICP, Executive Director

Notice of Availability

**Shasta Regional Transportation Agency
Draft 2015 Federal Transportation Improvement Program**

The Shasta Regional Transportation Agency (SRTA) is the Metropolitan Planning Organization (MPO) for Shasta County and its incorporated cities. As the MPO, SRTA is required to prepare a Federal Transportation Improvement Program (FTIP) every two years. The purpose of the FTIP is to program all US Department of Transportation funded, and regionally-significant, transportation projects. The FTIP is a four-year program of projects for the maintenance, operation and improvement of the transportation system. SRTA encourages the public to review and provide comments on the FTIP. The draft FTIP is available for review at www.srta.org, and at the below address. Comments and questions may be directed to Kathy Urile, Senior Planner, at the address below or kurile@srta.ca.gov. The comment period begins May 21, 2014, and ends June 20, 2014, at 5:00 PM. A public hearing, and approval of the FTIP, is scheduled for June 24, 2014, at the SRTA Board of Directors meeting at the City of Anderson Council Chambers, 1887 Howard Street, Anderson, CA, 96007 at 3:00 PM. This notice regarding FTIP availability and approval also satisfies SRTA and the Redding Area Bus Authority Program of Projects requirements for Federal Transit Administration funding.

Hill Country Health & Wellness Center

is seeking candidates to fill a part-time position as Coach Advocate for its Circle of Friends program in Burney. Circle of Friends serves the Intermountain Area, providing support for individuals and their families who live with serious mental health challenges. Coach Advocates work with the Circle of Friends team, health center staff, community partners, and volunteers to provide support and services to program participants. Work schedule will vary, approximately 20 hours per week, mostly Monday through Friday but will include some weekend work. \$11.00/hr.

Candidates must be able to communicate clearly, be an excellent active listener, be compassionate and empathic, be able to encourage others, and be able to participate in peer to peer training. Must have knowledge of the principles of recovery and available resources, and familiarity with consumer empowerment is important. Preference will be given to candidates with personal experience as a consumer of mental health services.

Position requires driving own or company vehicle; applicants must have current driver's license and must provide a clean DMV printout.

Resumes can be emailed to hr@hillcountryclinic.org or faxed to (530) 337-5754. Resumes accepted between 12:30 and 3:30 PM on Mondays, Wednesdays and Fridays at the Wellness Center located at 37095 Main Street, Suite C, in Burney. Visit our website www.hillcountryclinic.org. We are an Equal Employment Opportunity employer.

Notice of Availability

**Shasta Regional Transportation Agency
Draft 2015 Federal Transportation Improvement Program**

The Shasta Regional Transportation Agency (SRTA) is the Metropolitan Planning Organization (MPO) for Shasta County and its incorporated cities. As the MPO, SRTA is required to prepare a Federal Transportation Improvement Program (FTIP) every two years. The purpose of the FTIP is to program all US Department of Transportation funded, and regionally-significant, transportation projects. The FTIP is a four-year program of projects for the maintenance, operation and improvement of the transportation system. SRTA encourages the public to review and provide comments on the FTIP. The draft FTIP is available for review at www.sрта.org, and at the below address. Comments and questions may be directed to Kathy Urlie, Senior Planner, at the address below or kurlie@sрта.ca.gov. The comment period begins May 21, 2014, and ends June 20, 2014, at 5:00 PM. A public hearing, and approval of the FTIP, is scheduled for June 24, 2014, at the SRTA Board of Directors meeting at the City of Anderson Council Chambers, 1887 Howard Street, Anderson, CA, 96007 at 3:00 PM. This notice regarding FTIP availability and approval also satisfies SRTA and the Redding Area Bus Authority Program of Projects requirements for Federal Transit Administration funding.

Subject: Notice of Availability: Draft 2015 Shasta County FTIP
Attachments: SRTA Draft 2015 FTIP for Public Review 5-21-2014.pdf

Interested Parties/Partners:

In accordance with Shasta Regional Transportation Agency's (SRTA's) Public Participation Plan, please be advised that the Shasta Regional Transportation Agency (SRTA) draft 2015 Federal Transportation Improvement Program (FTIP) is available beginning tomorrow, May 21, 2014, through June 20, 2014, at 5:00 PM, for public review and comment. In addition to the attachment to this message, the draft FTIP will be posted to SRTA's web site: www.srta.ca.gov. A hard copy is also available for review at the office address, below.

The FTIP is a four-year, financially-constrained program of federally-funded projects, as well as projects of regional significance. The FTIP will be considered by the SRTA Board of Directors for approval at its meeting of June 24, 2014 at the Anderson City Council Chambers, 1887 Howard Street, Anderson, CA at 3:00 PM. A public hearing will be held at this meeting.

To better respond to revisions or comments you may have on the draft FTIP, I encourage your early review and comment submittal.

This notice, the ensuing newspaper public notices, the SRTA web posting, and the public hearing for the draft 2015 FTIP will satisfy the Redding Area Bus Authority's (RABA's) Program of Projects (POP) requirements for Federal Transit Administration (FTA) Section 5307 fund use.

Please let me know if you have questions.

Thank you.

Ms. Rachel Falsetti, Division Chief
Department of Transportation
Division of Transportation Programming, MS 82
P.O. Box 942874
Sacramento, CA 94274-0001

Attention: Abhijit Bagde, SRTA FTIP Liaison

Subject: Draft 2015 Shasta County Federal Transportation Improvement Program (FTIP)

Dear Ms. Falsetti:

Enclosed are two hard copies of the Shasta Regional Transportation Agency's (SRTA's) draft 2015 Federal Transportation Improvement Program (FTIP). As per the 2015 FTIP Checklist and Development Guidance, all items on the checklist, except the signed board resolution, are included in the draft.

The public participation period for the draft 2015 FTIP begins Wednesday, May 21, 2014, and runs through Friday, June 20, 2014, at 5:00 PM. A public hearing and agency approval are scheduled for June 24, 2014.

An email containing all required detail listings (in PDF) and the financial summary in Excel format have also been forwarded to you.

Please do not hesitate to contact Senior Planner Kathy Urlie at 530-262-6194, or kurlie@srta.ca.gov, if you have any questions.

Sincerely,

A handwritten signature in blue ink, appearing to read "Daniel S. Little", is written over a horizontal line.

Subject: Notice of 2015 Shasta County FTIP Preparation

Interested Parties/Partners:

In accordance with Shasta Regional Transportation Agency's (SRTA's) Public Participation Plan, please be advised that SRTA is undertaking an update to its Shasta County Federal Transportation Improvement Program (FTIP). The FTIP is a four-year, financially-constrained program of federally-funded projects, also including projects of regional significance.

The FTIP tentative development schedule follows:

- February – Notice of upcoming FTIP update development
- February through March – Interagency consultation, as requested
- March and April – Draft FTIP development
- May – minimum 30-day public review of Draft FTIP

- June 24, 2014 – Final 2015 FTIP presented to SRTA Board of Directors for adoption and subsequent transmittal to Caltrans, the Federal Highway Administration, and the Federal Transit Administration for approval.

Notices regarding this 2015 FTIP, and the ensuing public review and its notices, will satisfy the Redding Area Bus Authority's (RABA's) Program of Projects (POP) requirements for public participation.

Please let me know if you would like to meet regarding the FTIP for intergovernmental consultation purposes, or have questions about the document and/or process.

Additionally, if I've sent more than one of these messages to you based on mailing list duplication, my apologies. Please respond by email indicating the address you would like for me to remove.

Thank you.

Dolores Raglin, Chairperson
Pit River Tribal Council
36970 Park Avenue
Burney, CA 96013

Subject: Invitation to Consult on Regionally Significant Transportation Planning Documents

Dear Chairperson Raglin:

The Shasta Regional Transportation Agency (SRTA) is getting ready to prepare several regionally significant transportation planning documents. As the transportation planning agency for the Shasta region, we value the Pit River Tribe's input on the development of these documents. The table in attachment 1 lists the documents, their descriptions, and important relevant dates.

SRTA, hereby, formally invites you to consult on the development of these documents. If you need more information regarding the development and planning processes behind these documents, or if the Pit River Tribe has comments or requests, please contact me so we may discuss the tribe's needs and concerns.

We look forward to our consultations with you on this project.

Sincerely,

January 9, 2012

Mr. Daniel Little
Executive Director
Shasta County Regional Transportation Planning Agency
1855 Placer Street
Redding, CA 96001

Dear Mr. Little:

The California Department of Transportation (Caltrans) received the Shasta County Regional Transportation Planning Agency's (Shasta RTPA) request for delegated authority from Caltrans to approve Administrative Modifications to the Federal Statewide Transportation Improvement Program (FSTIP). The board action attached to your request indicates that the Executive Director is delegated the approval of Administrative Modifications for the Federal Transportation Improvement Program (FTIP) and the FSTIP. With the acknowledgement of your board action, Caltrans hereby delegates to Shasta RTPA the authority to approve Administrative Modifications to the FSTIP in accordance with the revised FSTIP/ FTIP Amendments and Administrative Modification Procedures dated June 3, 2011.

The following procedures apply to Shasta RTPA upon receiving Caltrans' delegation:

1. Prior to approving the FTIP/FSTIP administrative modifications, Shasta RTPA may consult with Caltrans on proposed changes.
2. Shasta RTPA may request Caltrans to provide a cursory review of the administrative modification prior to the Shasta RTPA's approval.
3. Shasta RTPA shall send copies of the approved administrative modifications to Caltrans, Federal Highway Administration, Federal Transit Administration, and other stakeholders. Caltrans will post the approved administrative modifications on the Division of Transportation Programming Website.
4. Caltrans will routinely review Shasta RTPA's approved administrative modifications and will reject changes that do not comply with the attached procedures. In such cases Shasta RTPA must correct all items of noncompliance.
5. Caltrans will withdraw its delegation from Shasta RTPA if it is found to be consistently noncompliant with the revised FSTIP/ FTIP Amendments and Administrative Modification Procedures.

Mr. Daniel Little
January 9, 2012
Page 2

Thank you for requesting this delegation that will undoubtedly streamline your region's programming process and thus expedite projects. My staff is looking forward to working with your staff to ensure a successful implementation of this delegation. If you have any questions, please call Muhaned Aljabiry at (916) 654-2983.

Sincerely,

RACHEL FALSETTI
Chief
Division of Transportation Programming

Subject: Request for State Delegation of Federal Statewide Transportation Improvement Program (FSTIP) Administrative Modification Approval Authority

Dear Ms. Falsetti:

The Shasta County Regional Transportation Planning Agency (SCRTPA) is requesting Caltrans' delegation to approve administrative modifications to the FSTIP.

On October 25, 2011, the SCRTPA board took action to:

- 1) Adopt Resolution No. 11-15 delegating authority from Caltrans to approve administrative modifications to the FSTIP in accordance with the attached Federal Transportation Improvement Program (FTIP)/the Federal-Statewide Transportation Improvement Program (FSTIP) Amendments and Administrative Modifications Procedures; and
- 2) Authorize the executive director to approve future administrative modifications to the FTIP and FSTIP on behalf of the board.

The 2010 FTIP has been updated to be consistent with the new FSTIP/FTIP Administrative Modification and Amendment Procedures. The Public Participation Plan does not need to be updated; it is consistent with the new procedures.

Upon receipt of delegation authority from Caltrans, the SCRTPA executive director will approve all future administrative modifications to the FTIP and FSTIP. If you have any questions or would like to submit comments, please contact Anne Jensen, Assistant Planner, at ajensen@co.shasta.ca.us or (530) 225-5430.

Sincerely,

Daniel S. Little, AICP, Executive Director
Shasta County Regional Transportation
Planning Agency (MPO)

Attachments: Staff Report for October 25, 2011 Board Meeting
Resolution 11-15

STAFF REPORT

MEETING DATE:	10/25/11
SUBJECT:	Delegation of the Federal Transportation Improvement Program (FTIP) Administrative Modification Procedures
AGENDA ITEM:	4-3
STAFF CONTACT:	Anne Jensen

SUMMARY:

The Federal Highway Administration (FHWA) and Federal Transit Administration (FTA), in cooperation with Caltrans, have recently revised administrative modification and amendment procedures to the 2010 Federal Transportation Improvement Program (FTIP). The revised procedures let MPO's undergo a delegation process allowing them to approve FTIP administrative modification amendments without the need for state or federal approval.

STAFF RECOMMENDATIONS:

It is recommended that the board:

1. Adopt Resolution No. 11-15 delegating authority from Caltrans to approve administrative modifications to the FTIP in accordance with the attached Federal Transportation Improvement Program (FTIP) / the Federal-Statewide Transportation Improvement Program (FSTIP) Amendments and Administrative Modifications Procedures; and
2. Authorize the executive director to approve future administrative modifications to the FTIP upon receipt from Caltrans.

DISCUSSION:

The FTIP is a four-year program of projects showing where, when and how federal transportation funds are being spent in Shasta County, including those that the Shasta County Regional Transportation Planning Agency (SCRTPA) does not have programming discretion over. The FTIP must be financially constrained and programming expenditures must be balanced with estimated revenues.

Under this delegation, any FTIP amendment that meets the qualifications of an administrative modification could be approved by the executive director in lieu of state pre-approval. The board can expand approval authority after receiving the delegation from Caltrans. This would enable the SCRTPA to expedite the programming and project delivery process.

Delegation procedures are consistent with current state and federal programming procedures and the SCRTPA's public participation plan, and are currently being adopted as part of the 2010 FTIP.

ALTERNATIVES:

1. The board could choose not to accept the delegation authority over FTIP administrative modifications from Caltrans. This is not recommended as it increases review time by outside agencies.
2. The board could choose not to delegate the authority to the executive director. This is not recommended as the board does not currently approve administrative modifications because they are minor changes and do not require public review or comment.

OTHER AGENCY INVOLVEMENT:

The FHWA and FTA worked with Caltrans to simplify the programming procedures for California MPO's. The Technical Advisory Committee (TAC) concurs with the staff recommendation.

FINANCING:

No financing is required for the delegation process or future amendments; it is a procedural change only.

Daniel S. Little, AICP, Executive Director

Attachments: Resolution 11-15
2011 FSTIP/FTIP Administrative Modification and Amendment Procedures

RESOLUTION

RESOLUTION NUMBER:	11-15
SUBJECT:	Delegation of the Federal Transportation Improvement Program (FTIP) Administrative Modification Procedures

WHEREAS, the Shasta County Regional Transportation Planning Agency (SCRTPA) has been designated as the Metropolitan Planning Organization (MPO) for Shasta County; and

WHEREAS, Title 23 Code of Federal Regulations, Part 450 requires the preparation and adoption of a Federal Transportation Improvement Program (FTIP) by the MPO to become part of the Federal-Statewide Transportation Improvement Program (FSTIP); and

WHEREAS, the SCRTPA is responsible for preparing and processing administrative modifications and amendments to the FTIP; and

WHEREAS, the Federal Highway Administration and Federal Transit Administration, in consultation with the California Department of Transportation (Caltrans), has provided revised procedures for administrative modifications to the FSTIP to the governing board and subsequently the executive director of the SCRTPA (or designee); and

WHEREAS, the SCRTPA board identifies that it is appropriate, in addition to all former authorizing delegations, for approval of future FSTIP administrative modification actions to be delegated to the executive director of the SCRTPA (or designee).

NOW, THEREFORE, BE IT RESOLVED that the Shasta County Regional Transportation Planning Agency:

1. Accepts delegation authority from Caltrans to approve administrative modifications to the FSTIP in accordance with the attached FSTIP/FTIP Administrative Modifications and Amendments Procedures; and
2. Authorizes the executive director to approve administrative modifications to the FSTIP on behalf of the board.

PASSED AND ADOPTED this 25th day of October 2011, by the Shasta County Regional Transportation Planning Agency.

SUBJECT: Revised Federal -- Federal Statewide Transportation Improvement Program
(FSTIP) and Federal Transportation Improvement Program (FTIP) Amendment
and Administrative Modification Procedures

In our letter dated November 17, 2008, the Federal Transit Administration (FTA) and the Federal Highway Administration (FHWA) provided the California Department of Transportation (Caltrans) procedures on the FSTIP/FTIP Administration Modification and Amendment process.

Working in coordination with Caltrans, FTA, and FHWA have revised the FSTIP/FTIP Administration Modification and Amendment Procedures. The enclosed revised procedures provide much more flexibility, and in the spirit of FHWA's Every Day Counts Initiative, should shorten project delivery time by allowing for fewer formal amendments which generally take longer to process.

The revised procedures detail what specific types of programming changes to the FSTIP/FTIPs may be made as administrative modifications, for which approval has been delegated to the State, and what changes must be submitted to FHWA and/or FTA for approval as formal amendments. These procedures are intended to offer more flexibility to Caltrans and the Metropolitan Planning Organizations (MPOs) as well as clarify the parameters of an administrative modification.

Throughout the FSTIP/FTIP Administration Modification and Amendment Procedures update process, the FHWA and FTA have been very pleased with our partnership with Caltrans. This effort highlights Caltrans' continued dedication to the stewardship of the Federal-aid Program. More specifically, the FHWA and FTA extend great appreciation to Caltrans Office of Federal Transportation Management Program Chief, Mr. Muhaned Aljabiry and his staff.

If you have any questions regarding the attached procedures, please contact Ray Sukys, FTA, at 415-744-2802 (Raymond.Sukys@dot.gov) or Sue Kiser, FHWA, at 916-498-5009 (Sue.Kiser@dot.gov).

FSTIP/FTIP Administrative Modifications and Amendments Procedures

The following procedures are applicable for processing amendments and administrative modifications to the Federal – Statewide Transportation Improvement Program (FSTIP) and the Federal Transportation Improvement Programs (FTIPs).

Projects programmed in the FSTIP may be delivered in any of the recognized program years of the FSTIP provided Expedited Project Selection Procedures (EPSPs) have been adopted by the MPOs in accordance with 23 CFR 450, and the required interagency consultation or coordination is accomplished and documented. Changing the obligation year of a project using EPSP does not require an administrative modification or an amendment if the change does not require an air quality conformity determination.

1. Administrative Modifications:

An administrative modification is a minor change to the FSTIP/FTIP that does not require a conformity determination, a demonstration of fiscal constraint, public review and comment, or federal approval. The following changes to the FSTIP/FTIP can be processed through administrative modifications:

- i. Revise description of a project or a grouped project listing without changing the project scope or without conflicting with the approved environmental document;
- ii. Revise the funding amount listed for a project or a project phase. Additional funding is limited to the lesser of 40 percent of the total project cost or \$10 million. Programming capacity must be available in the FSTIP/FTIP prior to programming the modification and stated in the supporting documentation. See Table below for examples;

(Notes: Updated FTIP financial plans may be requested by Caltrans to validate fiscal constraint, if a MPO has processed only Administrative Modifications for a period of six months or more.)

Initial Project Cost	New Project Cost	Total Sum Increase	% Change In Cost	% Change < or = 40%	Total Sum Increased Is < or = \$10M	Type of Amendment (Formal or Administrative)
\$1,000,000	\$1,400,000	\$400,000	40%	Yes	Yes	Administrative
\$10,000,000	\$15,000,000	\$5,000,000	50%	No	Yes	Formal
\$500,000,000	\$510,000,000	\$10,000,000	2%	Yes	Yes	Administrative
\$100,000	\$140,000	\$40,000	40%	Yes	Yes	Administrative
\$400,000	\$1,000,000	\$600,000	150%	No	Yes	Formal
\$2,500,000	\$3,000,000	\$500,000	20%	Yes	Yes	Administrative

- iii. Program Preliminary Engineering (PE) phase, provided the Right of Way and/or Construction phase(s) are already programmed in the current

FSTIP/FTIP and additional funding amounts stay within the limits specified in Section ii.

(Note: Activities done prior to Federal Authorization are not eligible for Federal participation.)

- iv. A cost decrease has no cap as long as reduction in cost does not result in deletion of a project or a phase, and the affected project phase is still fully funded.
- v. Change source of funds.
- vi. Change a project lead agency.
- vii. Program Federal funds for Advance Construction conversion, programming capacity must be available in the FSTIP/FTIP prior to programming the conversion.
- viii. Change the program year of funds within the current FSTIP/FTIP provided MPO has adopted EPSP in accordance with 23 CFR 450.
- ix. Split or combine an individually listed project or projects, provided that the schedule and scope remain unchanged.
- x. Change grouped project listings description as long as it is consistent with the Programming Grouped Project Listings in Air Quality Non-Attainment or Maintenance Areas guidance.
- xi. Add or delete a project or projects from a grouped project listing, provided the funding amount stays within the limits specified in Section ii.
- xii. Program emergency repair projects on the state highways as a result of a natural disaster or catastrophic failure from an external cause, and that are not covered by the Emergency Relief Program, provided that these projects are exempt from Air Quality Conformity Requirements.
- xiii. Re-program a project for which FHWA funds were transferred to FTA in the prior FSTIP/FTIP and FTA has not approved the grant yet. The project can be programmed in the current FSTIP/FTIP via an administrative modification provided there is no change in the original scope or cost. Program the project using fund type "FTA 5307 (FHWA Transfer Funds)" in the FSTIP/FTIP.
- xiv. Program an FTA funded project from the prior FSTIP/FTIP into the current FSTIP/FTIP provided there is no change in the original scope or cost. Use the project description field (or "GTIPS MPO Comments" section) to list the year, amount, and type of the prior year funds.
- xv. Make minor changes to an FTA funded grouped project listing. Minor changes include changing the number of transit vehicles purchased by 20% or less and changing the fuel type of transit vehicles. The MPO must take the change through its interagency consultation procedures to confirm that the change in scope is minor.

2. Amendments:

Amendments are all other modifications to the FSTIP/FTIP that are not included under administrative modifications and shall be approved in accord with the provisions of 23

CFR 450.326 for each metropolitan area in the State, and in accord with the provisions of 23 CFR 450.216 for the non-metropolitan area.

3. Procedures;

a. Administrative Modifications:

MPOs with approval delegation from Caltrans

Caltrans may delegate to an MPO's Board the authority to approve administrative modifications. In such a case, no Caltrans approval of administrative modifications is required. If the MPO Board has delegated the authority to the Executive Director to approve administrative modifications, the MPO must provide copies of the delegation to Caltrans, FHWA, and FTA. The MPO must send copies of the approved administrative modification to Caltrans, FHWA, and FTA. Once approved by the MPO, the administrative modification will be deemed part of the FSTIP. The MPO will demonstrate in a subsequent amendment that the net financial change from each administrative modification has been accounted for. Caltrans will conduct periodic reviews of MPO's administrative modification process to confirm adherence to these procedures. Noncompliance with these procedures will result in revocation of that MPO's delegation.

MPOs without approval delegation from Caltrans

Each MPO's administrative modification will be forwarded to Caltrans Division of Transportation Programming for approval. If the MPO Board has delegated the authority to the Executive Director to sign off on administrative modifications, the MPO must provide copies of the delegation to Caltrans, FHWA, and FTA. The MPO must send copies of the administrative modification to Caltrans, FHWA, and FTA. In addition, the MPO must demonstrate in a subsequent amendment that the net financial change from each administrative modification has been accounted for. Once approved by Caltrans, the administrative modification will be deemed part of the FSTIP since no Federal action is required. Caltrans will notify FHWA and FTA of the approved administrative modification.

(Note: If it is found that an approved administrative modification does not meet the criteria of an administrative modification, FHWA and FTA reserves the right to reject that administrative modification and require a formal amendment.)

b. Amendments:

Amendments to the FSTIP must be developed in accordance with the provisions of 23 CFR 450, and approved by FHWA and/or FTA in accordance with 23 CFR 450 and the July 13, 2004 MOU between FHWA - California Division and FTA Region 9. Each amendment must be forwarded to Caltrans Division of Transportation Programming for approval on behalf of the Governor. To expedite processing, the MPO will also forward a copy of the submitted amendment to FHWA and FTA at the same time the amendment is sent to Caltrans. Once

approved by Caltrans, the amendment will be forwarded to FHWA and/or FTA for federal approval. Once approved by FHWA and/or FTA, the amendment will be deemed part of the EIS/IS. The FHWA and/or FTA approval letter and respective Conformity Determination will be addressed to Caltrans, with copies sent to the MPO.

4. Consultation:

If a question arises regarding the interpretation of what constitutes an administrative modification or an amendment, Caltrans, the MPO, FHWA, and/or FTA will consult with each other to resolve the question. If after consultation the parties disagree, the final decision rests with FTA, for transit projects, and FHWA, for highway projects.

Any exception to these procedures is allowed only through consultation among MPOs, Caltrans, and FHWA/FTA. FTA, for transit projects, and FHWA, for highway projects, will have the final decision whether or not such an exception is granted.

Subject: Shasta Regional Transportation Agency Delegation of Authority to Executive Director to Approve Federal Transportation Improvement Program (FTIP) Formal Amendments

Dear Ms. ~~Falsetti~~: *Rachel*

At their meeting of December 10, 2013, the Shasta Regional Transportation Agency (SRTA) Board of Directors adopted attached Resolution Number 13-14 delegating authority to the SRTA executive director to approve Federal Transportation Improvement Program (FTIP) formal amendments.

The SRTA Board of Directors, in recognition that its meeting schedule can make it difficult to bring forward formal FTIP amendments in a timely manner, provided this delegation to the SRTA executive director under the following criteria:

1. Programming revisions will be consistent with federal and state allocations, and prior SRTA actions;
2. Federal and state FTIP requirements would continue to be followed, as well as SRTA's public participation process; and
3. The executive director will postpone and refer to the SRTA Board of Directors any amendment where such a request is made during the public participation process.

Please contact either senior planner Kathy Urlie (530-262-6194; kurlie@srta.ca.gov) or me (530-262-6191; dlittle@srta.ca.gov), if you have any questions or require additional information.

Sincerely,

A handwritten signature in black ink, appearing to read 'D. Little', is written over a horizontal line.

RESOLUTION

RESOLUTION NUMBER:	13-14
SUBJECT:	Delegation of Authority to Executive Director to Approve Federal Transportation Improvement Program (FTIP) Formal Amendments

WHEREAS, the Shasta Regional Transportation Agency (SRTA) has been designated as the Metropolitan Planning Organization (MPO) for Shasta County pursuant to U.S.C. Section 134(a) and (g); and

WHEREAS, Title 23 Code of Federal Regulations, Part 450 requires the preparation and adoption of a four-year Federal Transportation Improvement Program (FTIP) by the MPO to become part of the Federal-Statewide Transportation Improvement Program (FSTIP); and

WHEREAS, in order to be consistent with the State Transportation Improvement Program (STIP), the FTIP must be updated every two years; and

WHEREAS, SRTA is responsible for preparing and processing administrative modifications and formal amendments to the FTIP; and

WHEREAS, SRTA's governing board of directors may delegate approval of formal amendments to the FTIP to the executive director of SRTA; and

WHEREAS, the meeting schedule of the SRTA Board of Directors can make it difficult to bring forward formal FTIP amendments in a timely manner.

NOW, THEREFORE, BE IT RESOLVED that the Shasta Regional Transportation Agency delegates authority from the SRTA Board of Directors to the executive director to approve formal amendments to the FTIP under the following criteria:

1. Programming revisions will be consistent with federal and state allocations, and prior SRTA actions;
2. Federal and state FTIP requirements would continue to be followed, as well as SRTA's public participation process; and
3. The executive director will postpone and refer to the SRTA Board of Directors any amendment where such a request is made during the public participation process.

PASSED AND ADOPTED this 10th day of December, 2013, by the Shasta Regional Transportation Agency.

For **Greg Watkins, Chair**
Shasta Regional Transportation Agency

STAFF REPORT

MEETING DATE:	12/10/13
SUBJECT:	Delegation of Authority to Executive Director to Approve Federal Transportation Improvement Program (FTIP) Formal Amendments
AGENDA ITEM:	5-4
STAFF CONTACT:	Kathy Urlie, Senior Transportation Planner

SUMMARY:

The Federal Highway Administration (FHWA) and Federal Transit Administration (FTA), in cooperation with Caltrans, allow for Metropolitan Planning Organizations' (MPOs') board of directors to have a designee approve Federal Transportation Improvement Program (FTIP) formal amendments. This provision allows more timely access to project funds.

STAFF RECOMMENDATION:

It is recommended that the board of directors adopt Resolution Number 13-14 delegating authority to the executive director to approve formal FTIP amendments.

DISCUSSION:

The FTIP is a four-year program and schedule of projects for Shasta County. SRTA has no discretion to change most projects in the FTIP. For projects where SRTA has discretion, there is always a prior board of director's action to guide the programming. The FTIP must be financially constrained, meaning that programming expenditures must be balanced with estimated revenues. A project may not receive federal funds until it is correctly listed in the FTIP.

Due to the lengthy intervals between board of directors' meetings, timely formal FTIP amendments are sometimes not possible, resulting in project delays. Delegation of FTIP approval authority to the executive director would allow programming changes without waiting for a regularly scheduled board of directors meeting.

The executive director would continue to ensure that programming revisions are consistent with federal and state allocations and prior SRTA actions, and that all FTIP requirements are followed. Any FTIP formal amendments approved by the executive director would be summarized and included in the next SRTA Board of Directors agenda under correspondence.

In approving formal amendments, the executive director would adhere to SRTA's public participation process, including public notices. Should a member of the public or any agency request that a proposed amendment be heard by the board of directors, the executive director would agendize the amendment for the next meeting.

ALTERNATIVES:

The board of directors may choose not to delegate authority to the executive director for approval of FTIP formal amendments. On occasion, this would result in project delays.

OTHER AGENCY INVOLVEMENT:

The Technical Advisory Committee (TAC) concurs with the staff recommendation.

FINANCING:

Approval of the delegation will have no financial effect on the agency. It will result in more timely access to project funds for those agencies delivering transportation projects in the region.

A handwritten signature in black ink, appearing to read 'D. Little', is written over a horizontal line.

Daniel S. Little, AICP, Executive Director

Attachment: Resolution Number 13-14: Delegation of Authority to Executive Director to Approve
Federal Transportation Improvement Program (FTIP) Formal Amendments
