

Shasta Regional Transportation Agency
Response to Questions on Notice of Requests for Proposals (RFPs)
for
2016 Digital Orthoimagery Collection Project
(Posted January 12, 2016)

Q1: Are there specifications for the imagery? You mention aligning with the 2010 capture, could we get those specs please?

A1: *Exact specifications will be part of the 2016 Digital Orthoimagery Collection Project RFP when it is released.*

Q2: Also to confirm: 180 square miles? That is a somewhat small area of interest so just want to make sure that is correct.

A2: *The area of interest was calculated in ArcMap and is estimated at 180 square miles covering the urbanized area of Shasta County*
