Response to Questions on
Request for Quotes (RFQ) for Electric Bicycle and Scooter Purchases
Final Update: June 11, 2018

NOTE: SRTA has received several responses to our Request for Quotes that do not follow the format for responses as described in the request. In order to receive consideration, please make sure your submission contains all of the elements requested in the “Quote Format and Content” section of the RFQ

Q1. Can you let me know what bikes you or your staff have physically tried and would you appreciate an onsite demo of some models?

A1: The staff at SRTA has limited experience with electric bicycles. While we cannot accept an onsite demo prior to the submission deadline closing, we may accept an onsite visit prior to the completion of purchase.
