

Shasta Coordinated Transportation Plan Community Workshop

Shasta Regional Transportation Agency (SRTA) is updating the Shasta Coordinated Transportation Plan.

The plan aims to improve transportation services for the general public, especially transportation serving older, low-income, and disabled individuals in Shasta County, by identifying strategies to improve their mobility.

At this workshop, we will be discussing the plan, transportation needs throughout the region, as well as potential strategies to implement moving forward. SRTA is looking forward to hearing what the community thinks and is committed to improving transportation services for residents of the Shasta Region.
